GÖRG advises the Altano Gruppe GmbH in further expansion process

GÖRG Partnerschaft von Rechtsanwälten mbB has successfully advised the Altano Gruppe GmbH under the lead management of Dr. Tobias Fenck and Markus Beyer on the acquisition of three more equine practices by its portfolio companies in the last three months.

For more than three years, Dr. Tobias Fenck's team has been assisting the Altano Gruppe in various transactions with regard to legal advice. By completing the above-mentioned transactions, the Altano Gruppe has been able to further successfully expand its portfolio, which now includes 14 clinics and six associated practices.

About the Altano Gruppe GmbH

The Altano Gruppe offers a wide range of diagnostic and therapeutic measures in the field of veterinary medicine. The vision of the group of companies is to bring together renowned clinics and practices on a supra-regional level and thus to further expand the group.

About the veterinary practice for horses Dr. Gerd Apel

The veterinary practice was acquired in September by the veterinary competence centre Karthaus. The focus of the practice is on gallop and trotting track services as well as tournament supervision and polo events. The Altano Gruppe is thus expanding its range of expertise into the Ruhr area in order to become active here as well.

About the equine practice Dr. med. vet. Rutmer Niemendal

The equine practice Dr. Niemendal was acquired by the veterinary clinic Dr. Schneichel GmbH on November 2. Through this acquisition, the Altano Gruppe was able to gain a competent specialist for ophthalmology, orthopaedics and dentistry.

About the joint veterinary practice C. Theile and Dr. J. Haertel

The joint practice was acquired on 2 November by the Veterinary Centre for Horses in Kirchheim Altano GmbH. The special feature of the practice is the mobile horse care. In addition, the practice offers a variety of services for small animal treatments. In addition to general health care, the veterinarians offer laboratory, ultrasound and X-ray diagnostics as well as soft tissue surgery and biological treatments for the patients. A cooperation with animal health practitioners, supported by homeopathic preparations, completes the range of consultation services.
