

PRESS RELEASE

Frankfurt am Main, 16 February 2026

GÖRG advises on the sale of Völker Video- und Datentechnik to Ondal Medical Systems

GÖRG advised the owner and founder of Völker Video- und Datentechnik GmbH, a specialist provider of high-resolution video solutions for medical applications, on its acquisition by Ondal Medical Systems GmbH.

Völker Video- und Datentechnik GmbH develops and manufactures high-resolution camera and video systems for use in medical technology, particularly for surgical lights. Since its founding in 1988, Völker Video- und Datentechnik GmbH has become a market leader for innovations in the development of customized solutions in the field of video technology.

Ondal and Völker Video- und Datentechnik GmbH had an established business relationship prior to the merger. The company founded and managed by Thomas Völker will complement and further expand Ondal's portfolio and product range going forward. Following the merger, the company will continue to be operated under the management of Thomas Völker.

Ondal Medical Systems, a leading manufacturer of medical carrying systems, is expanding its portfolio with the acquisition of the new medical imaging and video systems business unit. The transaction represents a further step in Ondal's buy-and-build strategy and is also intended to strengthen its position as a technology partner for leading medtech manufacturers and hospital integrators.

A GÖRG team led by partner Dr Tobias Fenck provided comprehensive legal support to the seller of Völker Video- und Datentechnik GmbH throughout the entire sales process.

Ondal was legally advised by White & Case, led by Dr Stefan Koch.
